A mix of pieces, many in the repertoire of distinguished organists, ranging from the lyrical to the majestic and suitable for liturgical or concert use. We'd love to hear any recordings you may make.

## NEW RELEASES

### Partita for Organ (Tim Knight)

**TKM846 - Printed £5.95 / TKODL51 - PDF Download £3.75**

This concert piece (or concluding voluntary) was originally going to form the first movement of an Organ Sonata. However, it has become a stand-alone piece, rhythmic and exciting in parts, but lyrical in others. Moderately difficult. The piece is dedicated to a young, talented organist living in America called Liam Lees, as a thank you for providing us with some recordings of our other organ titles. Performance level 6/7.

### Organ Music for Quiet Moments (Various Composers)

**TKM849 – Printed £11.95 / PR849 - Pre-Order £9.95 ('til 16.08.20)**

In July 2020, we ran a free competition for all-comers to enter. The criteria was to write a piece no more than 3 minutes long on the theme of 'Organ Music for Quiet Moments' which must be suitable for an Organist of moderate standard and for use in a Church setting primarily, but can also be suitable for a concert or recital setting. This booklet contains the top five selected entries and the outright winner by Peter J. Smith, 'A Solemn Sarabande for these distracted times'.

### 5 Variants on Picardy for Organ (Tim Knight)

**KE302 – Printed £5.95 / KE302DL – PDF Download £3.75**

These variations on Picardy (an old French Carol) have been written to show the different colours of the Organ. We have included the first page with performance instructions, and the first and last pages of music to give you a preview of the set. Traditionally used at Eastertide or Whitsun.

### Meditations (Tim Knight)

**KE303 – Printed £7.95 / KE303DL – PDF Download £4.25**

A set of 3 pieces for manuals and pedals, suitable for meditative moments in services or recitals and within the scope of all organists. Contents: 1. Idyll, 2. Cantique, 3. Sarabande.
